Due regard will be given, when considering results and performances to:

- a) The EquiRatings Power Score. This is the average of the three best finishing scores of a horse and rider as combination over a given dataset;
  - For the six year old horses, the dataset is all BE Novice and Intermediate classes and all CCI2\*-S and CCI2\*-L classes that take place throughout 2023 up to the selection date.
  - For seven year old horses, the dataset is all BE intermediate classes and CCI3\*-S and CCI3\*-L classes that take place throughout 2023 up to the selection date.
- b) The horse's level of experience.
- c) Quality of each run and **not** the number of runs that a horse has had.
- d) Past and present results from the previous season if applicable.
- e) The status of the judges and the competition
- f) The difficulty of the cross-country/showjumping courses
- g) The terrain
- h) The quantity and competitiveness of the starters
- i) Although the performance in all three phases will be taken into account by the Selectors, they reserve the right to select an athlete/horse combination with an outstanding talent or record in one of the three phases of the competition, if it is in the interests of achieving the Objectives of the Selection Policy.
- j) Behaviour of the athlete and people associated with the athlete (including, without limitation to, owners, partners, coaches and grooms) that may have an impact on creating a positive environment when representing Great Britain.

### Objectives

18. The Objectives of this Policy are;
  - a. To allow potential future Championship horses international experience.
  - b. To show case British-bred horses.

Any changes to the Policy must be approved in writing by the BE CEO, Performance Director (PD) and the PM. The amended Policy in its entirety will be communicated to all athletes (as directed by the Selectors) and the BE International Director by e-mail, and the section revised will be published on the BE and BEF websites.

### De-selection;

20. De-selection of an athlete/horse combination may occur at any time between the announcement of the combinations and the First Horse Inspection based upon performance, soundness of the horse and fitness of the rider. The final decision as to whether to substitute, whatever the reasoning, will be made by the Selectors in consultation with the Team Vet.

21. After announcement of the athlete/horse combinations, in the case of an athlete being considered

medically unfit to compete, the decision as to whether to de-select/replace the athlete will be made by the PM and HPC following consultation or an examination by a World Class Programme-approved Human Sport Science and Medicine (HSSM) Practitioner and in consultation with the Selectors. This may involve the athlete being asked to ride certain dressage movements or jump selected fences on their selected horse. Being unfit to compete is best described as “not being able to ride their horse in a manner which allows the athlete to produce the standard of performance at which they were selected”.

22. In the case of a horse being considered unfit, due to veterinary reasons, to compete or unable to compete to the performance standard anticipated, the decision will be made by the PM and HPC following an examination by the World Class Programme-approved veterinarian and in consultation with the Selectors.

Appeals;

23. Due to the complexity of selecting for the YHWC, Selectors may be unable to attend any/all MER qualify events. Therefore, the EquiRating Power Score and the selection panels expert judgement will form the main basis of selection, combined with all other criteria. By making an application for the YHWC, applicants accept there no appeals process and selection decisions made by the Selectors will be non-contestable.
